Movement that inspires

# The Picanto

Movement that inspires

## The city belongs to the young

If the city makes you feel young and alive, and you're eager to explore new places, you've found a soul mate in the Picanto. It may be small, but it's roomy inside, and it's full of big ideas.

## Always in style

Where is the latest hot spot? Chances are, it's not far from where the Picanto is headed. Enjoy stealing the spotlight with its stylish contours and bold charisma.

## True style lies within

The Picanto's stylish dashboard groups driving, entertainment and climate controls with logical ingenuity. It feels spacious, wide-open and impressively modern.

## Ready for modern life

Getting through a typical day of finding your way, staying informed, meeting people, and staying connected takes a certain level of skill and ingenuity. The Picanto helps you handle all the demands of urban living.

**Sun visor illumination lamps** Don't miss a spot when you're preparing for a meeting. Pull down the sun visor and open the mirror to activate lights at each side of the glass, as well as a U-shaped mood light strip around the sides and bottom of the glass.

**Rear view camera with dynamic guidelines** Using a waterproof rear camera and the 8-inch dash display, the rear view camera projects dynamic guidelines onto the image to recommend a path as the driver reverses.

**4.2-inch Supervision Cluster** Get tire pressure alerts and other essential vehicle and trip information at a glance with the mono LCD located between the instrument dials.

**Bluetooth Handsfree** Built-in Bluetooth® connects paired, compatible mobile devices seamlessly, giving you easy access to music streaming and hands-free calls.

## 8" color touchscreen audio

A vivid 8" color LCD screen is shared by the rearview camera and the audio system. The large screen makes it simple to select radio stations and operate other audio system controls with the touch of a finger.

A wide-angle photograph of a car's interior, showing the front and rear seats. The seats are upholstered in black leather with prominent red stitching along the seams and edges. The front seats have a perforated leather section on the lower backrest. The dashboard, steering wheel, and center console are visible in the background. Sunlight streams in from the right side window, creating a bright, airy atmosphere. The text "Give yourself room to breathe" is overlaid in the bottom left corner.

## Give yourself room to breathe

It's a small car, but you get it all: headroom, shoulder room, plenty of legroom, and even a comfy front center-console armrest.

# City life requires real flexibility

You always have choices with the Picanto, whether moving people, cargo, or a mix of the two. Enjoy a day out shopping, a road trip, or have the space all to yourself.

255ℓ cargo capacity

**60:40 split folding rear seats** For maximum flexibility, the rear seatbacks split 60:40 and fold flat, allowing several combinations of people and cargo.

**Dual-level luggage board** The cargo area floor board mounts flush with the folded seatbacks and conceals a space below to store items out of view.

**Double tray** Located just below the temperature controls, the double tray provides a convenient space for sunglasses, smart phones or audio devices.

**Glove box** With separate sections to keep all your favorite accessories organized, the glove box stores items out of sight yet easily within reach.

**Front cup holder** At the front of the console, dual cup holders keep drinks secure and close at hand.

**Center console armrest** The floor-mounted center console offers convenient storage and a place to rest your arm.

# Truly reliable performance

Reliable, efficient and fun when you need them to be, the Picanto's engines and transmissions offer you a boost of confidence as you drive through life.

**Kappa 1.0 MPI Engine** The smooth-running 67-ps, 1.0-liter MPI engine combines efficiency, power and fun performance.

**Kappa 1.2 MPI Engine** The 83-ps, 1.2-liter dual-CVVT MPI engine with piston-cooling jets and coated piston rings is feisty and capable, yet also quiet and efficient.

**Automatic transmission** The 4-speed automatic transmission offers quiet operation and shift points that are set to maximize smoothness even in stop-and-go city traffic.

**Manual transmission** The 5-speed manual transmission features friction-reduction measures for lasting performance, and lets you select gears quickly with confidence.

# Obsessed with peace of mind

From its sturdy frame to the latest in sensor technology, the Picanto is dedicated to protecting you when trouble happens and helping you avoid tricky situations in the first place.

**Front / side / side curtain airbags**  
To help protect occupants and potentially reduce injuries in the event of a collision, the Picanto offers driver and front passenger airbags, two front-side airbags and two side-curtain airbags.

**Braking system** The brakes are tuned to work with the ABS and tires to reduce stopping distance, while maximizing stopping power and directional control while braking.

**HAC (Hill-start Assist Control)** At a standstill on an inline, HAC prevents you from rolling backward by gently applying the brakes, for up to two seconds, from the time you lift your foot from the brake pedal, giving you time to switch your foot smoothly to the accelerator.

**ESC (Electronic Stability Control)** ESC ensures optimal braking performance and directional control by automatically delivering the right amount of braking force to each wheel based on engine torque and driving circumstances.

**PDW-R (Parking Distance Warning - Reverse)** You're lucky to find a parking spot in the city, and PDW-R can help you back in with confidence. Using sensors, it beeps faster, then continuously, as you get closer to an obstruction.

Advanced adhesives

44%

Advanced High-Strength Steel

**Advanced High-Strength Steel (AHSS) and Hot-Stamped Steel** The Picanto uses more than 44% Advanced High Strength Steel (AHSS), resulting in phenomenal rigidity. And hot-stamping of components is employed in core stress areas. These measures greatly improve average body tensile strength, enhancing cabin protection and improving dynamic performance.

## X-line expresses, your flair for life

The Picanto X-Line says a lot about your attitude thanks to eye-catching accents inside and out. Crossover-inspired styling details combine with higher ground clearance for a more confident road presence and a clearer view of the road ahead.

# Curate the drive: interior options

Choose the interior that fits your style, from elegant cloth or artificial leather, to the bold Sports interiors with color-accented artificial leather.

# It's wise to personalize

Picanto comes with great standard features, but you can make it your very own by choosing from numerous comfort and convenience features.

**Ventilated driver's seat**

Cool air is blown through the backrests and seat cushions to maximize comfort of the driver seat.

**Smart key**

The smart key remote lets you unlock or lock the doors without inserting the key, and you can start the car by simply pressing a button.

**Sunroof** Power controls let you open or close the sunroof with the press of a button, letting in sunlight and a refreshing breeze. Its wide opening gives the Picanto's interior a feeling of added space and airiness.

**Audio remote controls** Buttons mounted on the steering wheel let you adjust audio functions while your eyes stay on the road.

**MDPS with tilt steering wheel** Motor-driven power steering simplifies turning, while a tilt steering column lets you find the most comfortable driving position.

**USB port** Connectivity to virtually any portable music storage device means that you can enjoy your entire digital music collection while on the road.

**Auto light control** Set the stalk ring to 'Auto' and the front and rear lights will turn on or off automatically depending on lighting conditions.

**Auto temperature control** Enjoy one-touch comfort simply by setting your preferred temperature, and the automatic system will monitor and maintain it until you change or cancel it.

**Manual temperature control** Simple graphics let you choose your temperature and airflow preferences and you can adjust them quickly whenever you like. Illuminated icons clearly display the current settings when it's dark.

**Alloy pedals** Racing-inspired alloy pedals add to the fun of driving. Raised rubber grips help ensure confident footwork.

**Electric outside mirrors** In extremely tight situations, a handy one-touch mechanism folds and unfolds mirrors to facilitate safe passage.

**High-mounted stop lamp** Located on the subtle spoiler above the rear window, the lamp safely alerts drivers behind you when you're braking.

Even more choices

The Picanto gives you plenty of choices for wheels, exterior lighting and attractive body colors that range from subtle shades to bright tones that truly stand out.
